# Estuary Tea Menu

As with wine, tea's character is determined greatly by subtle differences in soil, climate, and elevation. Cool nights, dry weather, and bright sunny days combined, provide the optimal conditions for growing tea. This type of climate forces the tea bush to expend all its energy in the growth of new shoots. The finest tea comes from gardens of high elevation, where cooler temperatures slow leaf growth producing leaves with a more concentrated flavor and aroma.

The method of harvesting and treatment contribute to each tea's distinctive signature. The best tea is picked entirely by hand, and only the bud and top one or two leaves are plucked.

## White tea
